

ORPHEOTOUR

DOWNLOADABLE AUDIO-VISUAL TOURS

Ophrys Systems launches a downloading site for its Audio-Visual Tours! This solution was created for sites who wish to complete their self-guided tour services by offering their visitors the possibility of downloading their tour through various portals (Internet, on-site kiosks, etc.)

INTERNET DOWNLOADING

We present your chosen content on our dedicated website, www.orpheotour.com, and Visitors are able to download your tour(s) to their computers. They can then transfer the program to their MP3 player or mobile telephones. It's an innovative solution which enables you to be visible on the World Wide Web and to appeal to a new genre of visitors.

The OrpheoTour website is accessible via a QR code which is a simple and efficient way to connect a user to a website.

When a user scans a QR code with their mobile phone they will automatically be connected to the desired website.

Optimize Your Visibility!

A DEDICATED TEAM TO HELP YOU CREATE A COMPLETE VISITOR TOUR SOLUTION

BLUETOOTH

DOWNLOADING KIOSKS

Visitors equipped with a personal MP3 player can download the tour on-site by connecting to our Downloading Kiosk or via bluetooth technology.

IORPHEO APPLICATION

Orpheo tours are equally available on the iPhone and iPod Touch thanks to our **iOrpheo** application. Visitors only need to go to the Apple store to download the application. Alone, or coupled with internet downloading, iOrpheo reflects the needs of the numerous amount of iPhone aficionados!

BENEFIT FROM OUR EXPERTISE AND THE WORLD RENOWNED ORPHEO BRAND!

Thanks to the know-how and expertise of our Creative Team, we guarantee **certified visitor tours** and an experience that is at once engaging, emotional, and educational for your visitors.
